

SAILING THE SURFACE OCEANOGRAPHIC CURRENTS

ANSWER KEY

Maggie went to the South Atlantic Ocean (#2). The North Pacific Ocean, that is the location of the Kuroshio Current, was not sailed by Kyle or Alice (#4), so it was sailed by Tom. The Canary Current in the North Atlantic Ocean (#3) was not sailed by Kyle (#1), so it was sailed by Alice. Kyle did not sail the Benguela Current (#1), so Maggie sailed the Benguela Current. What we are left with is that Kyle sailed the Peru Current located in the South Pacific Ocean.

Maggie	Benguela Current	South Atlantic Ocean
Alice	Canary Current	North Atlantic Ocean
Tom	Kuroshio Current	North Pacific Ocean
Kyle	Peru Current	South Pacific Ocean
